Purpose of This Playbook

This **living document** is intended to help internal Trimble teams and stakeholders:

- Understand the features and benefits of The Work Number® offering through an integration between Trimble and Equifax
- Be able to communicate the value propositions of this no-cost program to Vista and Spectrum customers
- Learn the talking points and tips to get Trimble customers interested in, and using The Work Number service

Table of contents

- 01** **The Employment and Income
Verification Challenge**

01

The Employment and Income Verification Challenge

**Buying a
new car**

**Qualifying for
government
benefits**

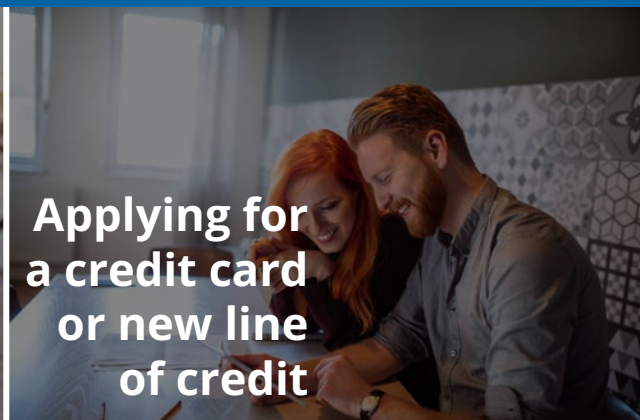

**Renting an
apartment**

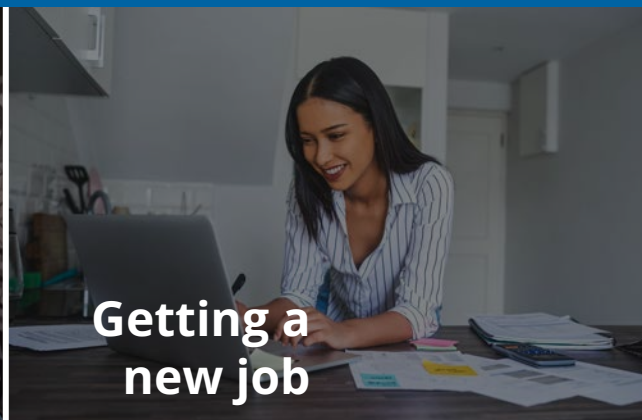

Your Customer's employees are transacting as consumers in their everyday lives...

**Obtaining a
mortgage**

**Applying for
a credit card
or new line
of credit**

**Getting a
new job**

Transactions Trigger Verifications

These important transactions often require verification of income and employment status that their employers may be tasked with providing. These are triggered when the lenders or government agencies reach out to their employers to verify employment and/or income status for:

Mortgages

Auto Loans

**Credit
Applications**

**Government
Benefits**

A Consistent HR and Payroll Burden

Typically these verification requests fall to companies' HR and payroll departments to address.

Depending on the size of the company, these teams can field **dozens to hundreds of verification requests** a week, adding more work to already stressed HR and payroll professionals.

02

Introducing The Work Number from Equifax

Trimble integration with Equifax brings
automation to Spectrum and Vista
Customers at no charge

The Work Number®

The Work Number® from Equifax is an **automated income and employment verification service** that provides verification of income and employment for employees to help them better qualify for loans, credit, and government assistance.

It is used by lenders, property managers, creditors, social service agencies, and other requestors, collectively called “Verifiers”, who need to verify individuals’ employment and income.

This service helps fulfill these requests by automating payroll information through Trimble’s Spectrum and Vista ERP solutions with greater accuracy.

Zero Cost Service for Trimble Spectrum and Vista Customers

Trimble's integration with Equifax brings **The Work Number Service to Vista and Spectrum ERP clients at no charge.**

The integration, which is being activated for all Trimble Spectrum and Vista customers in October, 2026, enables the encrypted sharing of employment and payroll data from our customers' RPs to Equifax, updated each payroll cycle. This secure and protected data is then used to automate verifications within Equifax's expansive network of credentialed verifiers.

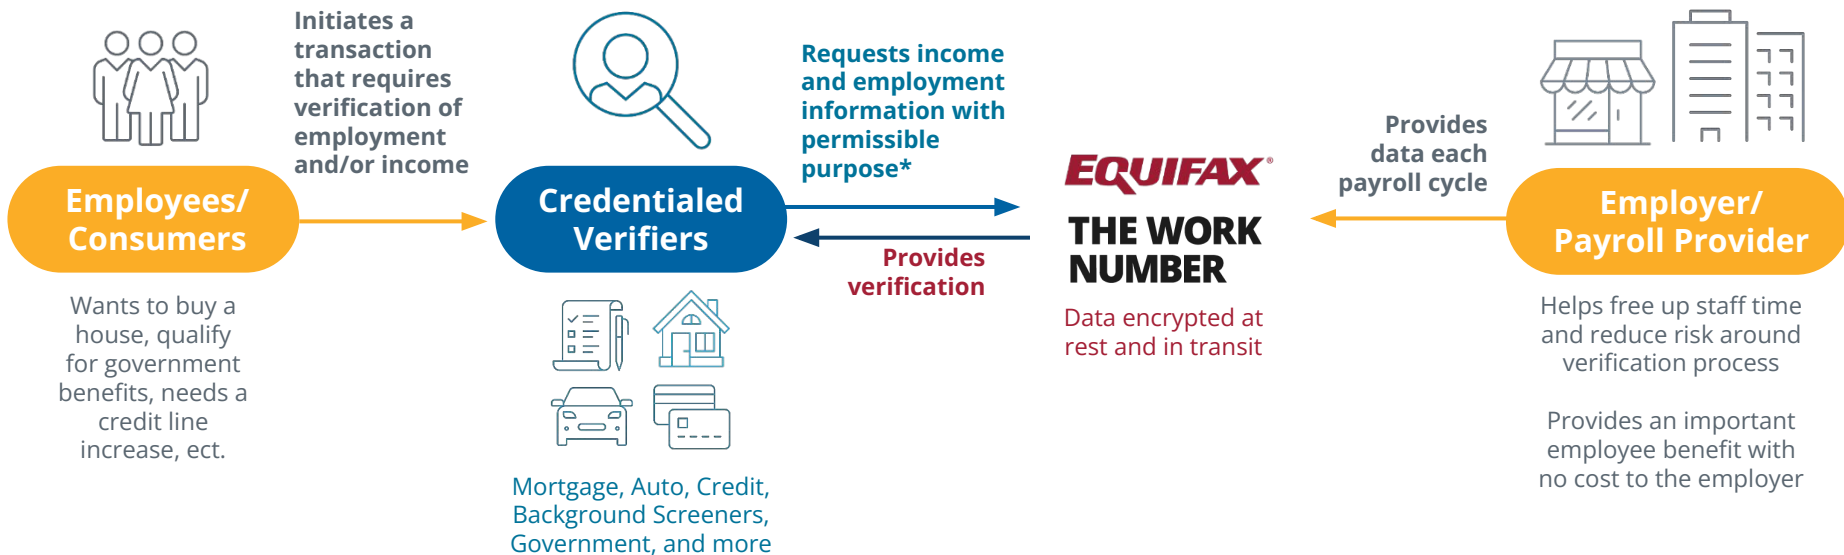

More than **44,000*** credentialed verifiers use The Work Number including:

- Mortgage/auto lenders
- Property managers
- Credit card issuers
- Pre-employment screeners
- Social service agencies
- ACA verifications

**Equifax 2025 data*

The Work Number – How it Works

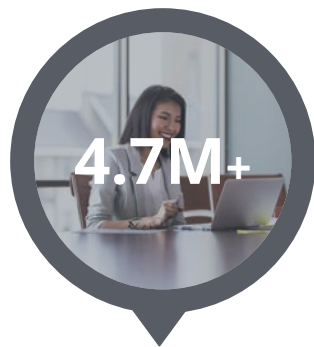

Enabling employees from organizations of all sizes to take advantage of automated employment and income verification.

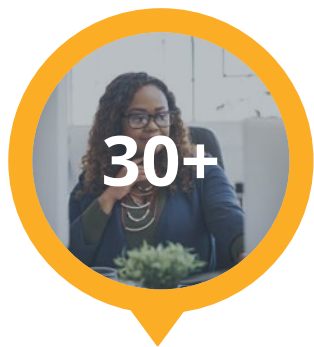

*Verifiers must have a permissible purpose to access data under the FCRA, which often includes some form of consent and/or application by the consumer.

03

Who This Helps

A Win-Win For All Involved

By automating the verification process, The Work Number eases the collective burdens on the three key groups involved in transaction processing:

Employers

Automates income and employment verifications on behalf of employees, relieving employers from having to respond to individual requests.

Employees

When their information is available on The Work Number, verifiers receive quicker information which can speed access and opportunities for employees

Verifiers

Provides instant response to income and employment verification requests, cutting through the communication clutter and potential delays in responses

04

Key Features, Benefits, and Differentiators

Key Features

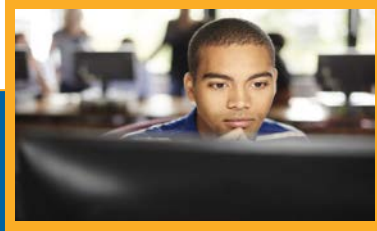

- **No-lift activation:** The integration with Equifax allows Spectrum and Vista customers to get going faster; Trimble will activate your integration for you at no additional cost
- **Verification automation:** The Work Number service can help significantly reduce your company's manual verification workload, and also help free up valuable time for your HR and payroll teams.
- **Privacy and security:** The Work Number uses stringent security standards to help protect employee information including data encryption, physical security controls, and user identity verification. Typically, requests are initiated by employees, usually at the time of application, and verifications can only be accessed by credentialed verifiers.

Key Benefits

Customer Benefits

- Reduces manual HR work at no cost to the employer
- Reduces risk due to errors and fraudulent requests
- Helps remove the employer from private employee matters
- Provides a more secure way of providing confidential information
- Enhances employee experience

Employee Benefits

- Instant response to verification requests, including during off hours and weekends
- Increased privacy to personal matters
- Increased security over their personal information being shared by their employer over the phone, email, or fax
- Provides a more secure way of providing confidential information

Key Differentiators

- **Instant queries, instant answers:** The Work Number streamlines verification requests by automating payroll information through the provider's software for instant and more accurate verifications.
- **Secure data governance:** The Work Number is governed by the Fair Credit Reporting Act (FCRA), which helps ensure Verifiers have a valid reason to obtain employment information, and employees can see who has requested their information and can dispute information that may be incorrect.
- **Leading coverage:** The Work Number has over 44,000 integrations with organizations with credentialed verifiers and over 199 million active records¹.
- **Government verifications:** More than two-thirds of state government agencies use The Work Number to help automate the eligibility determination process for social service programs, including Supplemental Nutrition Assistance Program (SNAP), Housing, Medicaid, Temporary Assistance for Needy Families (TANF) and Child Support Enforcement (CSE). In 2024 alone, The Work Number provided employment and income verifications for 25 million people seeking government benefits.

05

Data Privacy and Security

How is Customer Data Used?

Whenever customer data is involved, one of the key questions is, “how will that data be used and protected?”

The Work Number uses stringent security standards to help protect employee information including data encryption, physical security controls, and user identity verification. Requests are initiated by employees, usually at the time of application, and only accepted from credentialed verifiers.

Each verification request is tracked and can be provided in a report upon request. Additionally, employees have 24/7 access to their Employment Data Report (EDR) through The Work Number website, providing visibility into who has requested their information.

With The Work Number, personal data is not sold for marketing purposes to data brokers or other entities. Your company can cancel at any time.

Safeguarding Employee Data

Do you *really* know who is requesting information?

Verifier Clients are **credentialed** to verify legitimacy of the organization prior to receiving access to The Work Number data.

Verifiers and all transactions are subject to planned and **random audits** to help ensure proper usage of the data received.

Individual users are **authenticated** at log-in to help provide clear line-of-sight as to who is requesting the verification.

The Work Number service maintains **Globally recognized certifications** in data management and security.

06

How to Talk to Spectrum and Vista Customers About The Work Number

Understanding the Background

In order to best promote The Work Number offering, it's important to understand why this initiative was reached.

- 1) This brings a new, value-added service to our Spectrum and Vista customers to help them further automate time-consuming processes that impact their HR and payroll teams.
- 2) It is a revenue generating opportunity for Trimble — Equifax provides revenue share to Trimble. Equifax is paid by its credentialed verifiers for verifications. Lenders, creditors, and government agencies pay for the speed and convenience that The Work Number offers over traditional methods of manually reaching out to employers.
- 3) This helps Trimble's customers employees access the credit, loans and government benefits that they need

Customer Communications and Actions

Existing ERP Customers (signed prior to August 11, 2026)

- **Existing ERP** customers will be contacted on **August 15** via email to inform customers of the new offering, terms and conditions and option to opt out
- Existing ERP customers will be contacted for a second time on August 25 with the option to opt out
- If an existing ERP customer does not opt out by **October 1**, their integration to The Work Number will be turned on
- Customers who wish to opt out may do so via a support ticket.

Customer Communications and Actions

New ERP Customers (signed after August 11, 2026)

- Customers who signed contracts between July 21st - TBD will be included in a second round of communications similar to those as outlined on the previous slide.
- The standard Ts & Cs were updated as of TBD
- New Logo ERP customers (signed after TBD)
 - The Work Number solution will be included in standard Ts and Cs
 - Customers who wish to opt out may do so via a support ticket.

Key Customer Talking Points & Objection Handling

Core messaging pillars:

- **We Are BPO'ing a Service, Not Selling Customer Data:** Trimble is not commercializing or selling payroll lists. This integration operates strictly as a Business Process Outsourcing (BPO) service built directly into the ERP package. Data is only exchanged on a strict, transactional basis when an employee explicitly authorizes a verification for a loan, mortgage, or benefit.
- **It's a Market Standard at Zero Cost:** This is a complimentary, high-value BPO feature included in their ERP package. 80-85% of payroll providers including **Sage, SAP, ADP, Workday and Paylocity** already run on Equifax.
- **Strict Compliance & Security:** The feature is heavily governed by FCRA regulations, keeping data safer and more private than manual email or paper checks.

Data Furnisher Responsibility: Terms and conditions have changed to align with standard FCRA data-furnisher guidelines (handling routine dispute verifications within 30 days). This is standard across all enterprise payroll competitors.

Key Customer Talking Points

Some key things to remember to share in your customer conversations:

- Terms and conditions have changed due to the decision to activate this integration for all who do not opt out.
- Trimble is not and will not sell customer data. The data transfer is triggered by a verification request only.
- This service is provided at no cost to Trimble Spectrum and Vista customers
- There is little to no technical lift or learning curve
- Utilizing this service will help save your HR and payroll teams significant time and headaches
- This will improve your employees' lives by speeding approval decisions
- As of October 1, 2025, there are nearly 4.7 million employers contributing employment and income data to The Work Number, directly or through payroll providers
- Your employee data is kept safer, more secure, and private, and this service is governed by the FCRA

Opt Out Process

To opt out, customers should take the following steps:

1. An authorized support user should visit my.trimble.com
2. Select Case Type = Product Support & Access
3. Product: "Vista/Vista Web" or "Spectrum"
4. Support Category: Deployment (Environment, Implement, Integrate)
5. Subject: "Equifax The Work Number Opt Out"
6. Description: "Please remove company IDs <<insert list>> from the Equifax Work Number integration"
